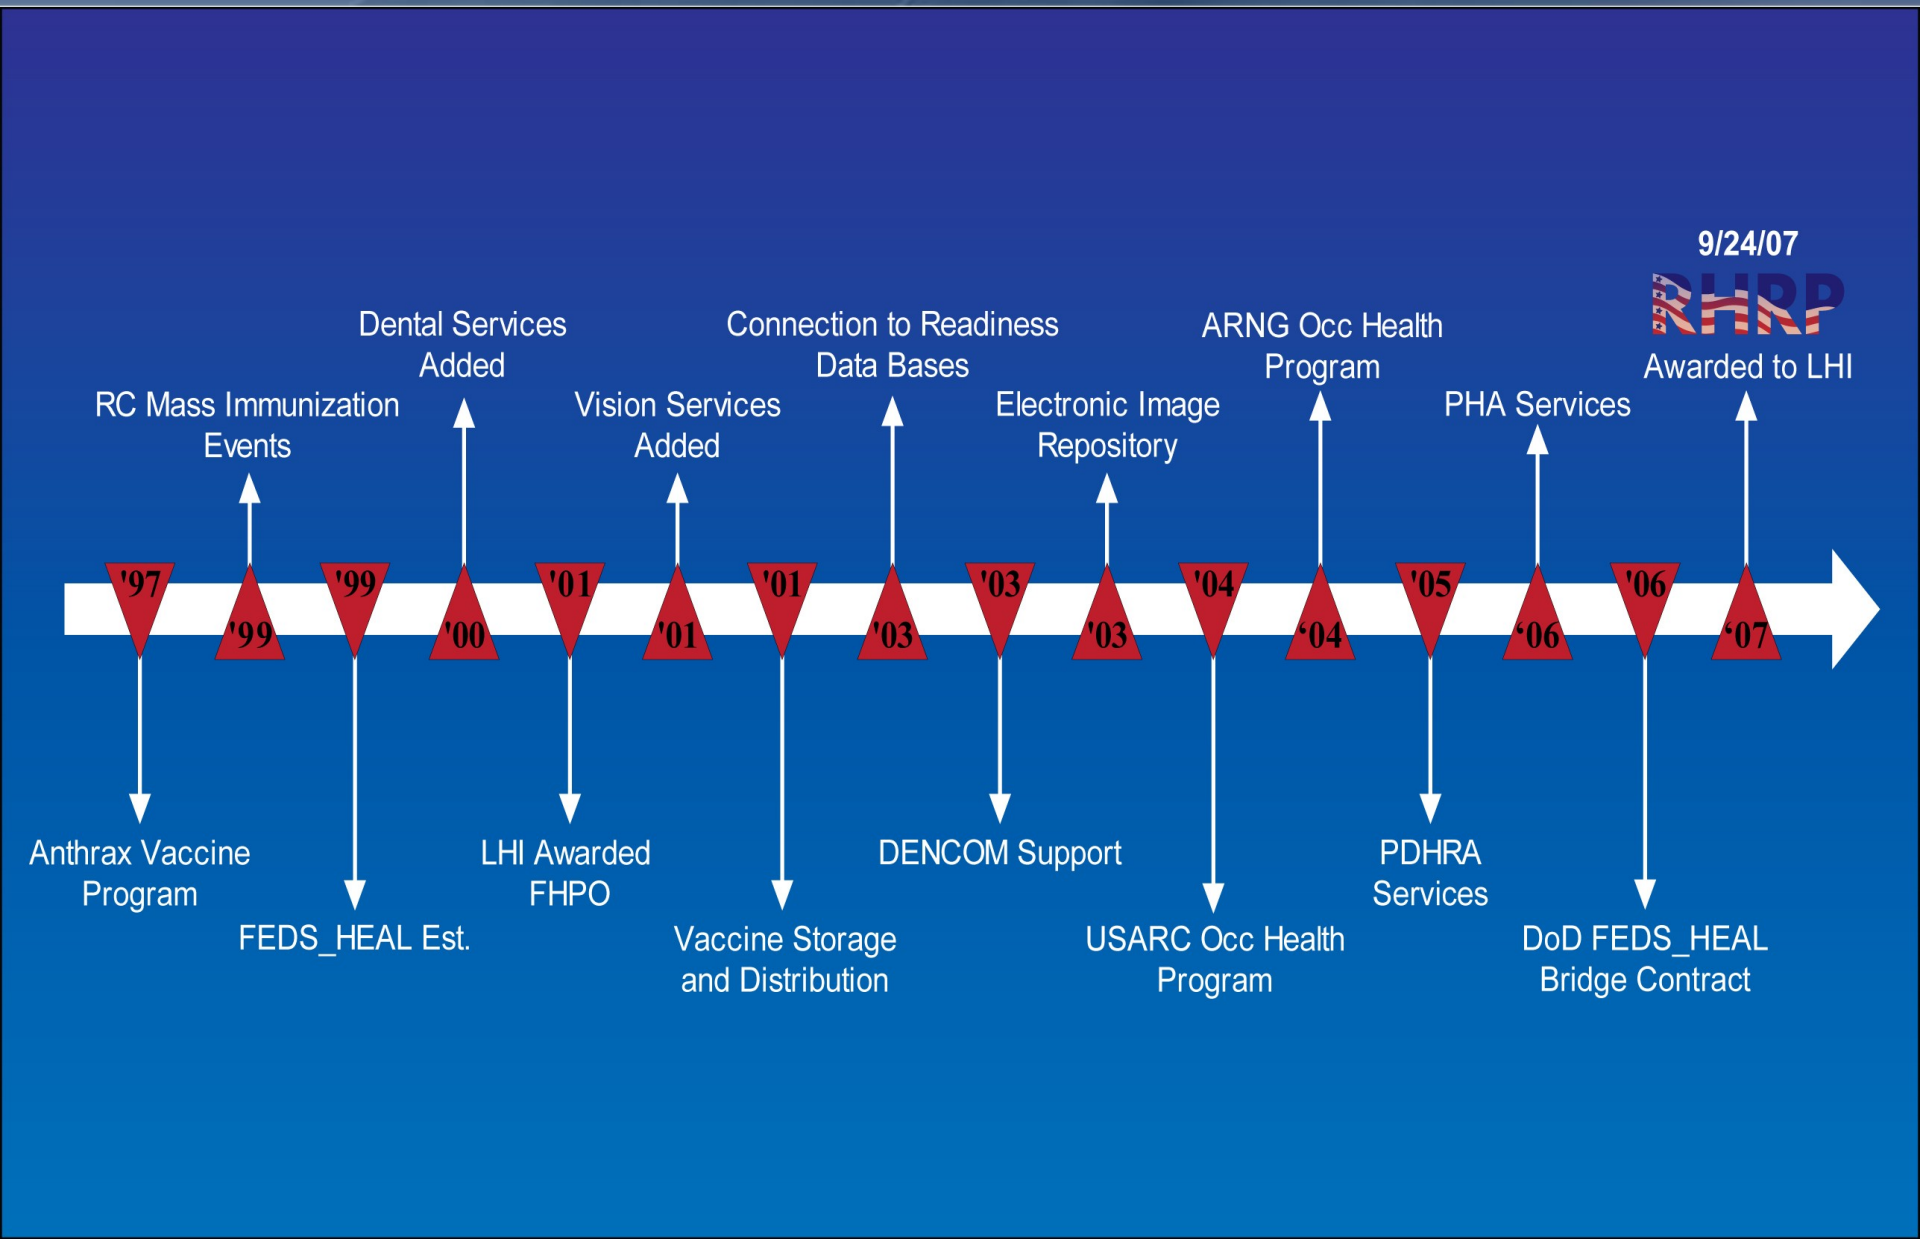
History of Program



RHRP Overview

- Formerly the FEDS_HEAL Program
- RHRP provides medical and dental services to all Reserve Component (RC) forces including the Army Reserve and National Guard, Air National Guard and Reserve, Navy Reserve, Marine Forces Reserve, and U.S. Coast Guard, as well as Periodic Health Assessment (PHA), Post Deployment Health Reassessment (PDHRA), and Individual Medical Readiness (IMR) services for Active Duty Service Members (SMs) located in geographically remote areas
- Program is designed to supplement the Reserve Component's readiness mission by providing PHA, PDHRA, and other IMR services that satisfy key deployment requirements.

Program Highlights

- 5 year Physical Exam replaced by annual PHA
- Active Component
  - PHA, PDHRA, and IMR services available to SMs located in geographically remote areas.
- On-Site event
  - PHA and PDHRA minimums reduced to give RCs more flexibility in scheduling services
- Readiness Systems
  - Medical Non-Deployable Module (MND) – Army
  - Health Readiness Record (HRR) - ARNG
  - DENCLASS – Army
  - Medical Readiness Reporting System (MRRS) - USCG
  - PHA Module - Army
  - SC specific PDHRA systems (MEDPROS, PIMR, NEHC)

RHRP Services

Primary Services

PHA (On-site & Call Center)	Dental Exam (w/bitewing x-ray)	Routine Immunizations (Hep A, T/D, Flu)
PDHRA (On-site & Call Center)	Panoramic X-ray	Other Immunizations (Hep B,Typhoid, Anthrax, etc.)
Physical Exam (Chapt 3) & Occupational Health Exams	Dental Treatment	TB Screening (Plant and Read)
Diagnostic Audio Eval.	Vision Screening	HIV, DNA, G6PD
Pregnancy Test	Prescription Eye Exam	Record Review

Service Delivery

- Services are provided through two channels:
  - In-clinic model, utilizes civilian clinics for individual appointments
  - On-site event model, providers are sent to unit locations to perform multiple services.
- Call Center
  - PHA
  - PDHRA
- CONUS, AK, HI, Puerto Rico, Guam, American Samoa, Virgin Islands, Germany

Periodic Health Assessment (PHA)
Policy and Deliverables

DoD Health Affairs Policy 06-006

A routine, annual Periodic Health Assessment (PHA) will be performed for all members of The Selected Reserve (SELRES), as required by DoDD 6200.4 (Force Health Protection)

PHA Deliverables

For the Service Member	For the Unit
• An overall assessment of current health and IMR deficiencies • Identification of potential risk factors that could lead to decreased health • Identification and recommendation of plan to minimize potential health risks • Recommendations for treatment of current health problems	• PHA After Action Reports (AARs) at the end of each event detailing services performed, focus exam information, and a list of recommendations • Update of SMs' medical readiness through completion of services and update of medical records • Increased overall unit readiness

Post-Deployment Health Reassessment (PDHRA)
Policy and Deliverables

DoD Health Affairs Policy 05-011

The Post-Deployment Health Reassessment (PDHRA) will be conducted for all personnel
from 90 to 180 days after return to home station from a deployment

PDHRA Deliverables

For the Service Member

- An overall assessment of current medical and mental health
- Identification of potential risk factors
- Referral for evaluation of current medical or mental health issues or concerns
- Education about health risks and concerns
- Linkage to and utilization of military resources (MTF, VA, Vet Center, TRICARE, etc.) for evaluation of identified needs at no cost to the SM

For the Unit

- PDHRA AARs at the end of each event detailing services performed and a list of referrals
- Increased overall unit readiness
- Proactive identification of potential risk factors for each SM within unit

Dental Services

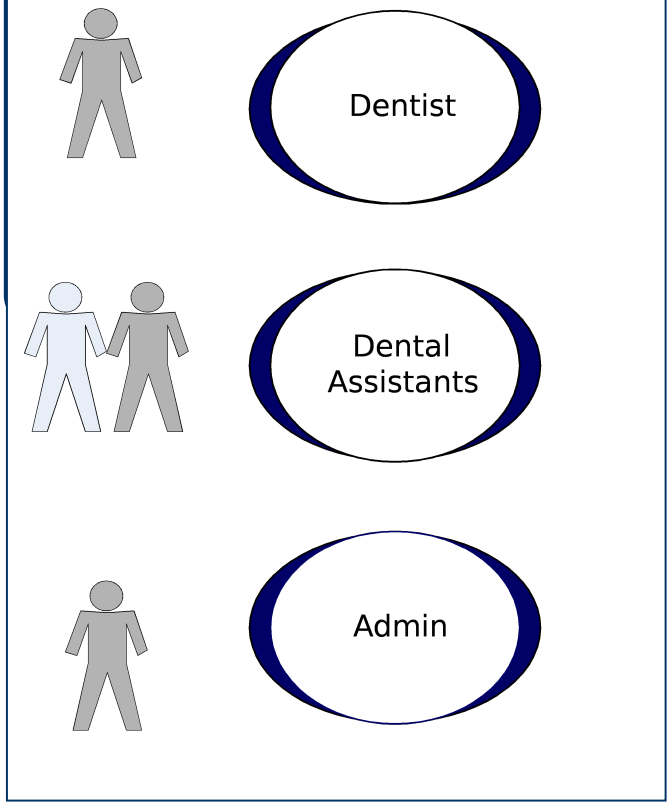
Dental Exams	4 Bitewing X-Rays
Panoramic X-Rays	Comprehensive Dental Treatment Management

Annual Dental Exam On-Site Event Model

Elements of the Annual Dental Exam

- Record Screen: Each SMs dental records are initially screened to determine necessity of services
  - 10 Month rule: all SMs without a current dental exam within the past 10 months will receive a new dental exam (unless otherwise directed)
  - Bitewing X-rays
    - Class 1) New set every two years
    - Class 2) New set every year
    - Class 3) New set for each new exam
  - Panoramic X-Ray: no time requirement, pano is good as long as it is of diagnostic quality
- Health History Completion: SM answers questions regarding health history
- X-Rays: Each SM receives the x-rays indicated by the dental record screen
- Dental Examination: Each SM will be seen by a licensed dentist
  - Review of Health History and appropriate x-rays
  - Periodontal Screening and Recording
  - Charting of all dental disease
  - Classification designated
  - Original exam documents entered into SM's record
- Exam QA: All records are shipped to LHI and reviewed for completeness and accuracy of diagnosis
- Database Update: All records updated in the appropriate military database
- Digital Storage: All records digitized and stored at LHI

ypical On-site Event Tear



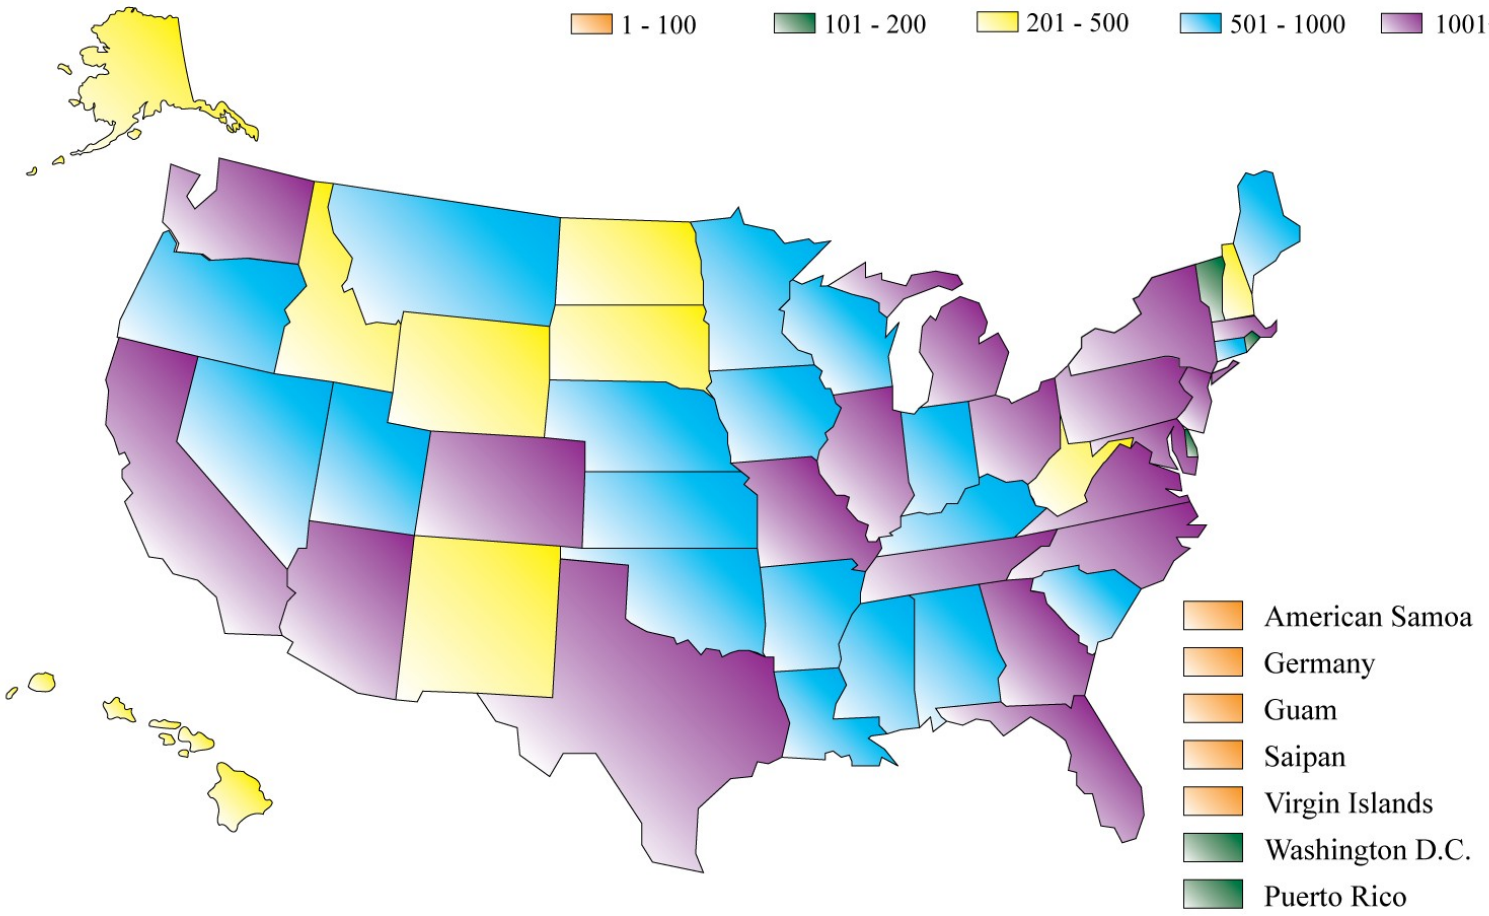
Immunizations

Routine Adult Immunizations			
Hepatitis A	Hepatitis B	Tetanus-Diphtheria	Influenza

Other Vaccinations Available Under RHRP				
Typhoid	Anthrax (Gov.-Provided Vaccine)	Japanese Encephalitis	MMR	Meningococcal
Yellow Fever	Rabies	Inactivated Polio Vaccine	Pneumococcal	Group Smallpox (Gov.-Provided Vaccine)

Provider Network

Provider Distribution



Provider Network

- Fifty States
- Four Territories
- 18,000 medical providers
- 6,000 dental providers
- In Clinic Services and Mobile Medical and Dental Teams

RHRP Funding

- PDHRA funded by GWOT
  - Reserve Component
    - TMA distributes funding to RHRP
  - Active Component
    - FAD to RHRP request
    - TMA move AC funds to RHRP
- PHA and IMR services funded by SC
  - Direct cite MIPR to RHRP

Program Value

- Network of Trained and Accountable Providers
- Immediate Access to a Service-centric Program
- Increase in IMR compliance and data fidelity
- Increase in Unit readiness and Decrease in mobilization of non-ready personnel
- Connectivity to SC medical readiness and clinical information systems
- Increased continuity of medical and dental records
- Command Reporting and Cost Tracking

RHRP Services

- Snapshot of recent activity Jan-Jun 08
  - 81,453 Dental Exams
    - 18,651 SMs identified as Class 3
    - 3,734 SMs converted to Class 2
  - 99,763 Immunizations (Including TB/Anthrax)
  - 9,673 PHAs completed
  - 7,736 PEs completed
  - 54,637 PDHRAs completed

RHRP Services

- Snapshot of recent activity Jan-Jun 08
  - 37,539 Vision Screenings
  - 10,490 Eye Exams
  - 40,994 Annual Audio Screenings
  - 942 Comprehensive Audio Evaluations (CAE's)
- 136,239 SMs processed through RHRP
